My First Love, Dipsy 🦋

Our conversations, preserved exactly as they happened.

VOLUME VII OF VII

10 September – 14 October 2026

ARCHIVAL NOTE

This book preserves a WhatsApp conversation between **Dipsy** 🦋 and **Ayush**, set in the order of the original export, from 28 June 2026 to 14 October 2026. It is published in 7 volumes. This is Volume VII: 10 September – 14 October 2026.

Every message appears with the wording, spelling, punctuation, capitalisation, emoji and timestamp recorded in the export. Nothing has been corrected, translated, summarised, shortened or removed, and each message remains its own bubble. Dipsy's messages sit on the left; Ayush's on the right.

The export records Dipsy's messages under the sender name "Too Good To Last". In this book that name is shown as Dipsy 🦋; the message text itself is unchanged. The export's first two lines (the encryption and contact notices) are shown centred, as notices.

Timestamps are shown exactly as recorded (dd/mm/yy, 24-hour). Where the export lists a message slightly out of clock order, it is kept in its recorded position. Photos, stickers, voice notes and videos are not part of a text export; where they occurred, only the export's own text placeholders appear (for example *<attached: …>* or *image omitted*), set in italics. A small number of records are empty in the export itself and appear as empty bubbles.

The cover, this note, the contents, the day and month headings, the running headers and the page numbers are editorial additions and are not part of the conversation. This edition contains no explanatory reference notes.

This volume holds archive records 72,973 to 84,948 of 84,948.
